

THE NATIONAL CACTUS AND SUCCULENT SOCIETY

NOTES

1. If at all possible you will receive seeds of your first choice but some species are available only in small quantities and substitutes may have to be sent.
2. All requests should be made on the proper form and addressed to Mr. C. Partington, 38 Kingsway, Worsley, Manchester, England.
3. Order by number only and retain lists for reference. (Names as shown on lists should be used for labelling, etc. Minor variations on some seed packets should be ignored.)
4. Please PRINT name and address clearly on order form. Do not send packing material, this will be provided by the Society.
5. No seeds left over from last year's distribution are included.
6. Because of heavy initial demand there may be a short delay before you receive your seeds.
7. **Special List.** To allow a fair distribution, only *one* packet per species can be supplied from the special list. This list contains more expensive seeds available only in small quantities. Seeds on the special list are 1/- per packet, on the other lists 6d. per packet.

SEED DISTRIBUTION - DECEMBER 1969

CATACEACE — 6d. per packet

1	ARIOCARPUS (NEOGOMESIA) AGAVOIDES	69	GYMNOCALYCIUM ZANTNERIANUM
2	" FISSURATUS	70	" Sp. HU 28
